

## Praxis makes Perfect: Māori Health as a Case Study

Suzanne Pitama  
9th Educational Psychology Forum  
Massey University Albany Campus  
22 November 2016

### Navigate :

- unconscious bias
- conscious bias
- institutional bias
- systemic bias

## Learning methods

- Immersed block course
- Lectures, seminars, small group
- Online modules (case based)
- Health literacy activities
- Flipped classroom
- Interactive learning activities
- Simulated patients (individual, CS and family)
- Student led community clinics
- Electives/Selective
- Log books
- Written patient cases
- Oral presentations
- MCQs
- OSCE

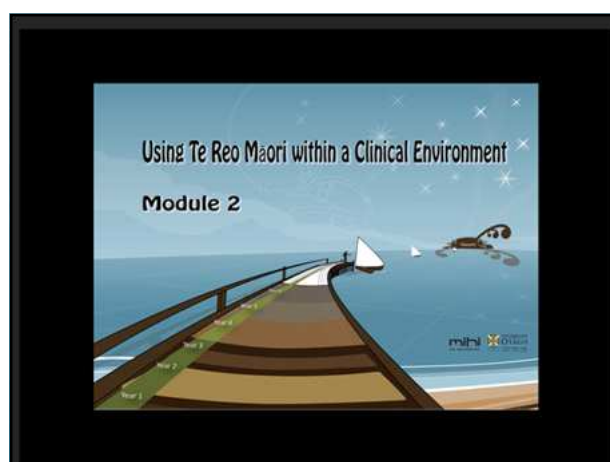

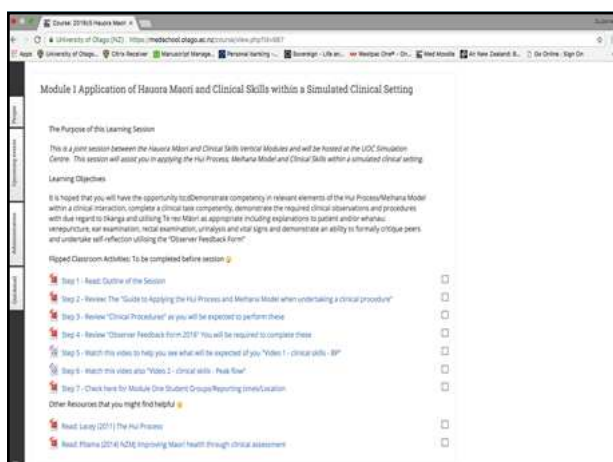

## Learning Environments

- Marae
- Lecture Theatres
- Small group tutorial rooms
- Clinical Skills Centre
- Within health settings
- Within Maori community settings

## Navigate unconscious bias

*"I think they might have to practice how to take bloods a bit more often."*

*"I think they will be great doctors."*

*You showed good abilities to integrate the Hui Process and Meihana Model....*

*And many of you even though a little thrown (perhaps by the rectal exam)....managed to .....*

**KEEP  
CALM  
AND**

**WHAKAWHANAUNGATANGA**

THANK YOU

**mihi**  
maori / odgers & berkeley

*"I can remember...I was asked about my iwi and where I was from"*

*"they were interested in learning Maori and I encouraged him to learn our Reo."*

*"They were nice and friendly, they weren't stuck up like a lot of people...they had good beside manner and I felt comfortable with them."*

*"A few need to ensure their interviews are more focused so they can competently cover both the clinical content and the Meihana Model – then they will be unstoppable."*

*"I wish my senior colleagues could see how these students work with ease when interviewing a Maori patient and their whanau."*

## Navigate Institutional Bias

One child (6 years old) has now told her parents....

She is going to be a doctor when she grows up...

## Results

**134 participants seen**

**8 GP referrals**

**1 Paediatric referral**

**8 Children referred to Ophthalmology**  
 - of these 3 will now receive glasses....  
 - 4 more to be checked from the Kohanga...
